## ISSUES ON THE BALLOT

### Vote YES on Question 4

Question 4 would allocate 0.5% of the Philadelphia city budget towards the Housing Trust Fund. **This will especially benefit seniors, people with disabilities, and others who are struggling to afford rent** by dedicating millions of dollars to expand affordable housing options in Philly.

- This would be an important step in addressing our critical affordable housing crisis.
- The Housing Trust fund ensures access to affordable housing options for people with low incomes & accessible homes for people with disabilities.
- Housing is healthcare. Access to a stable, affordable and safe home is fundamental to our health and wellbeing.

### Vote YES on Question 1

This ballot measure is a referendum on whether the state should legalize marijuana. It won't legalize marijuana by passing, but it would be a **clear public mandate** that we want our state lawmakers to do so.

## (some) RACES ON THE BALLOT

### Judges

State Supreme Court all the way down to lower courts -- and they are all important. Judges decide issues that impact our daily lives: health care access, policing & mass incarceration, employment rights, reproductive rights, voting rights, partisan gerrymandering (can't let folks try to take our political power), and more!

### District Attorney

This is so important. The DA office has discretion to charge people with crimes and prosecute them. This means the DA could really change how the city's criminal legal system works. They could, for example, be a force for decarceration, ending cash bail, and addressing anti-Black police violence...or not.
