⚡ WHAT'S ON THE BALLOT? ⚡

YES

YES ON PROP 79! Vote YES on Proposition 79 to enshrine the right to legal abortion in the Colorado state constitution. If Proposition 79 is passed, the Colorado government will not be able to pass any law that denies or impedes the right to abortion. The amendment expressly includes, in this right, a ban on prohibiting health insurance coverage for abortion. Colorado has become a safe haven for people from neighboring states with abortion bans. Strengthening and making permanent Colorado's abortion protections has never been more important!

YES

YES ON AMENDING THE COLORADO STATE CONSTITUTION TO REMOVE THE BAN ON SAME SEX MARRIAGE! Vote YES on repealing Amendment 43 of the CO state constitution, which imposes a statewide ban on same-sex marriage. This amendment is important because Obergefell v. Hodges, the Supreme Court ruling which legalized gay marriage, can always be overturned. Multiple current Supreme Court justices have recently expressed criticism for Obergefell and a desire to "revisit" the case. If this were to happen, voting YES could enable CO to remain a safe haven for same-sex marriage.

NO

NO ON PROP 138! Vote NO on Proposition 138, which would amend the CO state constitution to add that every K-12 child has the right to school choice. Proponents of the bill have argued that school choice is "under attack" due to recent legislation aimed to create higher standards for charter schools. Public education in CO has long been underfunded due to the tax revenue caps imposed by TABOR. This has led to an increase in CO charter schools. With 16% of students in the state now attending charter schools, the need for accountability measures has never been higher. Additionally, some advocates for public education have argued that this ballot initiative is a stepping stone for a voucher program, which would use public dollars to send children to private schools.

NO

NO ON PROP 128 AND 130! Vote NO on Prop 128 and 130, which would increase prison sentences and divert \$350 million in state funding to law enforcement. Longer sentences are not an evidence-based solution to community safety, and they erode the already significantly reduced rights of incarcerated people. Similarly, the Colorado state budget is already precarious due to tax revenue caps imposed by TABOR. Diverting \$350 million to law enforcement will not only enable police to do more harm to Coloradans, it will also be taking money away from other already underfunded state programs. This money should be going to housing, education, and rental assistance, all of which are shown to foster safe and sustainable communities.
